WILLIMANTIC

COMPANY L AT NOGALES. One Story Given by One of the Men Who Has Returned.

Some of the men that have just returned from Nogales are indignant over the conflicting reports that have been going around since their arrival in this city. One of the men stated on Wednesday evening that when the company reached Nogales they were told that the money that had been given to them by the people of Willimmantic had been spent. Some of the men, not belleving this, as they had only received oranges, lemons and banamas going down on the train, asked for an itemized account of what had been done with the funds. The hill was so far from the camp that the men were allowed to carry two officers gave some of the items, but did not disclose all of them to the men. It is understood that a type-writer was bought for one of the officers out of the fund without consuiting some of the members of the company.

When the boys became low in spending money a dollar was given to each man out of the fund that, they had been told, was spent. On the second application for money the men were at first refused by the captain, but the mess sergeant, who would oversible the inducer of Lieutenant Fullerton they were finally able to get the fund they be men were stations he was so late he had to the first refused by the captain, but the mess sergeant, who would oversible to mean that to the mess sergeant, who would oversible the fund that they bed to first refused by the captain, but the mess sergeant, who would oversible the men were should she portion they were finally able to get the fund they be got many.
